

BOEING SIMPLIFIED ENGLISH CHECKER (BSEC)

**Want to reduce time
spend on the document
development process?**

Boeing Simplified English Checker (BSEC) is a powerful tool that supports compliance, consistency, readability and quality of technical documentation. The easy to use interface and advanced features improve efficiency and result in overall volume reduction, a shorter time-to-market, and significant cost savings.

BSEC: THE LEADER IN SIMPLIFIED TECHNICAL ENGLISH AUTHORIZING

- Improve overall communication
- Substantial cost reduction in translation and production process authoring
- Compliance with international writing standards ASD-STE100, S1000D, ATA2200
- Significant ROI for documentation translated into different languages

INCREASE COMPREHENSIBILITY OF DOCUMENTATION

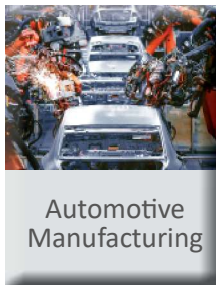

- Vocabulary Management System
- Text and Data Mining
- Rules Customization Engine
- Data Dictionary - customizable and supports industry standards

IMPLEMENT IN VARIOUS MARKETS

Aerospace

Tele-
communications

Simplified Technical English (STE) deliverables result in clear English, reduced language translation costs, higher quality documentation, and safer products.

IMPROVE AUTHORIZING EFFICIENCY

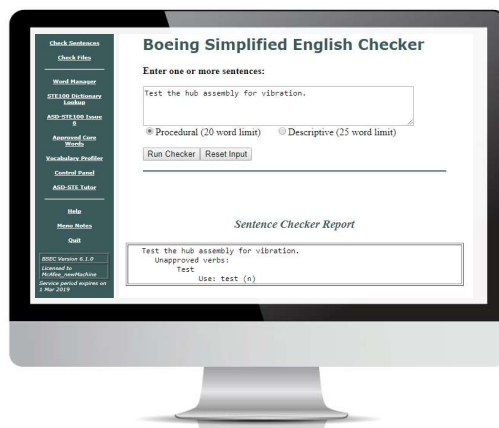

BSEC is a comprehensive, yet easy to use application, that reduces the amount of time needed in the document development process. By using a standards-based approach, document authors get immediate feedback and analysis of their composition from the Vocabulary Management System and Profiler.

Utilizing BSEC results in a more efficient process that is less error prone and allows for reusability of documentation when translating to different languages.

FEATURES

- Linguistically-advanced grammar engine
- Compliance checker for the latest ASD-STE100 specification
- Frequency analysis of vocabulary
- Approved basic dictionary terms listing
- Text Mining and Reporting

- Interactive and batch checking
- Advanced reporting linked to rules and STE Dictionary definitions
